

HIEU HONG PHAM

Mankato, MN | P: +1 952-292-5827 | hieuhong.pham@mnsu.edu | GitHub: <https://github.com/Hieupham1701>

PROFESSIONAL SUMMARY

Dedicated and driven third-year computer science undergraduate student with a strong academic record and active involvement in extracurricular activities. Experienced in peer tutoring and collaborative projects with faculty and fellow students. Demonstrates proven leadership, creativity, organization, and problem-solving skills. Being eager to contribute to innovative and collaborative environments.

EDUCATION

MINNESOTA STATE UNIVERSITY, MANKATO

Bachelor of Science

Mankato, MN

Expected Dec 2027

Major in Computer Science; Minors in Mathematics

Cumulative GPA: 4.0/4.0; Dean's List 2024-2025

Relevant Coursework: Introduction to Programming; Data Structure; Algorithms; Computer Architecture; Object-Oriented Programming, Software Engineering, Parallel computing, Databases, Information Security.

WORK EXPERIENCE

MavPASS Leader

Mankato, MN

Tutor

Jan 2025 – Dec 2025

- Led peer-facilitated session weekly to improve mastery of introduction to programming and data structure for twenty-five students.
- Providing one-to-one support to boost performance in C# and Python, improving assignment pass rate by 30% and cutting response time to student questions from 5 hours to 1 hour.

PROJECTS

Microservices Bank System

Tools: Java, Spring Boot, Spring Cloud, Keycloak, Eureka, Docker, Kubernetes, OAuth2/OIDC, Resilience4j Sep 2025– Dec 2025

- Implemented a microservices-based banking system with service orchestration network, using Spring Boot and Spring Cloud, improving system stability and enabling scalable service deployments.
- Implemented a secure API and authentication framework using Keycloak and OAuth2/OIDC, reducing security-related issues and enabling centralized identity management across 6 services
- Implemented fault-tolerance and monitoring mechanisms using Resilience4j, deployed containerized services on Kubernetes, integrating Spring Boot Actuator to achieve 60% system availability.

CFC-Tech AI Chat Box

Tools: Python, JavaScript, React, HTML, CSS, FastAPI,

Jan 2026 - Present

- Developing and redesigning the AI Chat Box web interface using React, HTML, CSS, improving UI/UX by 80%.
- Leading testing activities by creating test plans and test cases using Pytest, improving product performance by 40%.
- Assisting backend development using Python and FastAPI; integrate Supabase and Pinecone to build APIs and optimize system performance by 60%.

Tom' Adventure: Playing and Learning

Tools: C#, Unity

Sep 2024-Nov 2024

- Designed and implemented a gameplay and learning framework using C# and Unity, improving player engagement and enabling integrated math-learning features within battle gameplay.
- Implemented team-based development workflow and modular game components, reducing development iteration time.
- Implemented a demo and presentation-ready build, enabling project to be showcased at CASDCOM 2024 with positive feedback from educators and parents.

ACTIVITIES

MATH CLUB

Mankato, MN

Vice President

Sep 2024 – Present

- Actively orchestrated in bi-weekly Math Club meetings to collaborate on mathematical problem-solving and discussions, increasing 10% of participants per semester.
- Regularly update the Math Club communication board with announcements and creative content to maintain an active and welcoming community.
- Volunteered at the Science High School Fair, assisting in event coordination and supporting student participation.

HONORS & AWARDS

Jerry Heuer NCS-MAA Math Contest 2024

Mankato, MN

Honorable Mention

Nov 2024

Outstanding Team

Nov 2025

- Represented university in the prestigious MAA North Central Section Team Contest, competing alongside two teammates.

- Tackled ten challenging mathematical problems over 3 hours, covering topics such as Calculus, Algebra, Combinatorics, Discrete Math, and Number Theory.
- Ranked 22nd out of sixty-six teams from twenty universities across the region and received an Honorable Mention for our performance in 2024
- Ranked 8th out of sixty teams from twenty universities across the region and received Outstanding Team for our performance in 2025, furthermore, it is the best university's achievement ever.

ADDITIONAL SKILLS

Technical Skills: Python, C#, Java, SQL, HTML, CSS, JavaScript.

Languages: Fluent in Vietnamese; Conversational Proficiency in English.

Tools: Git, GitHub, Docker, Postman.

Certifications & Training: Microservices with Spring, Docker, Kubernetes (Udemy). Advance Python Programming (Udemy).
